

# DHIKA HAFIDZ

## Full-Stack Web Developer

### Phone

082260523997

### Email

dhikahafidz.jobs@gmail.com

### Address

Karawang, Jawa Barat

## Courses

### Full-stack MERN Developer

2023-2024

#### Eduwork

I studied the fundamentals of MERN stack development at Eduwork, where I completed several MERN projects and tackled various study cases. During this period, I built practical applications using MongoDB, Express.js, React, and Node.js, applying the knowledge gained to solve real-world problems. I also received guidance and feedback from mentors, which helped me refine my skills and gain a deeper understanding of full-stack development.

### Full-stack Javascript Developer

2024

#### BuildWithAngga

I trained as a Full-stack JavaScript Developer at Eduwork, where I learned MERN stack development and UI/UX design using Whimsical and Figma. My focus was on creating a booking website for accommodations. I gained hands-on experience in developing full-stack web applications with MongoDB, Express.js, React, and Node.js, while also designing user-friendly interfaces and optimizing user experiences through effective UI/UX practices.

## Education

### Bachelor of Computer Science

2018-2023

#### University of Buana Perjuangan Karawang

- GPA 3,7
- Awardee of Karawang Cerdas Scholarship (2019-2022)
- Involving and contributing in MAPRO UBP as a presenter of photography materials

## Skills

#### Frontend

- ReactJS
- Javascript
- Tailwind CSS

#### Backend

- NodeJS
- ExpressJS
- RESTful APIs

#### Database

- NodeJS
- ExpressJS
- RESTful APIs

#### Authentication

- JSON Web Tokens (JWT)
- bcrypt

#### UI/UX

- Figma
- Adobe Photoshop
- Adobe Indesign
- Whimsical

#### Internet of Things

- Arduino
- ESP8266

## About Me

A dedicated Fullstack Developer with experience in building responsive and dynamic web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Proficient in creating user-friendly interfaces with Tailwind CSS and experienced in API development and testing using Postman. Familiar with UI/UX design principles and capable of using Figma for wireframing and prototyping. Adept at collaborating in team environments using Git and GitHub. Additionally, have a foundational understanding of IoT development using Arduino and basic knowledge of integrating sensors and microcontrollers. Seeking to apply my skills and continue growing in a full-stack development role.
